

Swimming Pool is Very Popular Resort

Warmer Weather Causes People
to Take a Dip in Coleman's
Fine Swimming Pool

With the advent of warmer weather and school holidays, the swimming pool is becoming the chief resort for the younger people, and on Sunday afternoon the number bathing was the largest since the pool was built. The committee in charge are considering further improvements, and it has been suggested that arrangements be made with the International Coal Co. to utilize steam from their power house to warm the water in the pool, as the water which runs in from the Old Man River is somewhat too cool to permit of staying in the water for very long, while the less hardened bathers find it quite an ordeal to make the plunge.

Without a doubt this pool is a boon to the town, and co-operation should be extended by the citizens to keep it as clean and attractive as possible, so that children and adults will feel it a pleasure to resort there at any time during the day. It is probable that a caretaker will be placed in charge,

Complaint Forwarded to Public Works Dept.

Following complaints on the bad condition of the highway west, the following telegram was despatched on Tuesday to—
J. D. Robertson, Esq.,
Dep. Minister of Public Works,
Edmonton, Alta.

I would draw your attention to the poor condition of the Main Highways west of Crow's Nest Lake, this piece of road is very rough in one place. Bridge is washed out delaying tourists and other parties using highways from Coleman west. Be pleased if you bring this to attention of your Department.

W. J. Burns
Mayor, Coleman.

which is among the suggestions the committee is considering.

Those responsible for the building of the pool are deserving of no small credit, and their efforts should be encouraged by the citizens at large. The swimming pool committee are Mayor Burns, Chief Houghton, W. Cook, T. T. Burns and Mrs. Cornett.

COUNCIL AND SCHOOL BOARD AUTHORIZE NEW SIDEWALK

Local Improvement Contract Sanctioned and Cost to Be
Borne Jointly By Council and School Board—
Report on Health Conditions Satisfactory

A meeting of the town council was held last Thursday evening, the following being present: Deputy Mayor Pattinson presiding, Councillors G. Pattinson, J. Rushon and W. Fraser. Mayor Burns was unable to be present owing to having been delayed in returning to town from the vicinity of Lundbreck, where he had been on a fishing trip for two days.

The minutes of the previous meeting were read and approved on motion. The financial statement of the town from Jan. 1st to June 30th, 1927, was read by Secretary J. Ford, as follows:—

Cash Statements

Jan. 1st to June 30th, 1927

Accounts Payable	\$ 388.75
Accounts Receivable	\$ 2.16
Bank Balance	42.23
Relief Bids	91.80
Commissions	6.36
Compensation Board	13.53
Camp and Park Maintenance	76.60
Dog Licenses	217.75
Light Deposits	14.99
Finance Salaries	550.50
Fire Wages	60.00
Fire Expense	66.25
General Expense	33.40
Grants	30.00
Health Expense	4.00
Health Wages	144.00
Bank Exchange, Local Note Interest and Bank Interest	112.34
Sidewalk Taxes Arrears	288.20
Licenses	629.50
Licenses Insp. Sely	180.00
Sidewalk Taxes, 1927	18.04
Mothers Allowance	268.00
Note Bank	2,400.00
Permit Lights	13.10
Police Fines	25.00
Police Wages	516.00
Police Expense	11.68
Permit Buildings	6.00
Foundry Fees	2.00
Relief	120.85
Water Expense, 1926	376.98
Street Maintenance	437.30
Street Light & Water Stationery	968.85
Taxes Paid Edmonton	77.01
Town Hall Light and Water	90.10
Taxes Town, 1926	107.60
Taxes Town, 1928	1,444.00
Town Hall Expenses	72.80
Tax Recovery Costs	251.25
Tax Sale Surplus	1.50
Water Expense, 1927	20.00
Cash on Hand, Jan. 1st	312.00
	119.61
	\$5,965.52
	\$5,265.52

The following accounts were submitted and authorized to be paid if found correct by the committees:—

Mother's Allowance Act	\$ 67.00
Coleman Journal (printing)	55.55
M. McQuinn (work)	7.00
Dept. Telephones	7.30
W. J. Burns (to equity)	17.10
Jos. Moore (to equity)	18.65
C.M. Graham (signs)	37.40
R. Crawford (livery)	3.00
Fireworks for Celebration	100.00
Coleman Light and Water Co.	179.25
W. W. Ware (work)	8.45
W. Chapman (work)	7.55
R.F. Barnes (fence)	80.00

On motion the secretary was granted leave of absence during the month of August, and to arrange his time as best suited for the work of the office.

An application for a soft drink license by James Venera, pool room operator, was granted by the council.

On motion of Councillors Rushon and Fraser, the payment of account due to the assessor, J. E. Poppitt, was authorized.

The report on the health conditions of the town under date of May 5th, were submitted to the council, signed by J. Williams,

health inspector, and in part is as follows:—

Accompanied by Mr. Houghton, chief of police, a general inspection of the town was carried out on May 6. The water supply is obtained from the Old Man River; the intake being situated about a mile west of the town. Water mains are provided throughout and conditions by all appearances continue very good and satisfactory.

WASTE DISPOSAL. As previously reported, septic tank and cesspools are used at various hotels, cafes, schools, laundries, etc. Discharge therefrom are disposed of into subsoil drainage. At places where the above mentioned systems are not adopted waste water is disposed over the gardens and other open spaces. Combustible waste is destroyed by open fires on the premises. Other refuse is collected periodically and disposed of at the nuisance ground.

Taking into consideration the fact that the annual Spring cleanup campaign had, up to this date, not been carried out, conditions were very favorable. The prevailing wet weather has no doubt delayed matters considerably, but as soon as better weather sets in, immediate action will be taken by the local authorities to have the town properly cleaned up of all refuse accumulations.

Assistant Principal Wires His Resignation

Board Faced With Engaging Principal and Assistant—Mr. Watts Appointed Calgary High School Staff

The school board is now faced with having to appoint a new principal and assistant, owing to the resignations of Principal Powell, reported last week, and this week the resignation of W. T. Watts, assistant.

The first intimation Secretary Ford received was on Saturday morning in a telegram from Edmonton, in which Mr. Watts stated he had been appointed to the Calgary high school staff, and was writing later.

In talking over the situation with the Journal, Mr. Ford, secretary of the board, stated he was indeed sorry to receive the resignations, as both Mr. Powell and Mr. Watts had achieved very good results here, the latter having taught History, Literature and Arts during the past two years. He was previously from Calgary, so that he is returning to familiar ground there.

In regard to the principalship, for which several applications have been received in response to advertisements, these will be dealt with at a special meeting of the board, as well as dealing with the vacancy caused by the second resignation.

New Principal Appointed

David Royle, a former assistant principal of Coleman schools, was appointed principal at a meeting of the board held last evening.

Miss Vorwood, of Lethbridge, returned on Monday evening after relieving on the nursing staff of the hospital during the past month.

Visitors at Crow's Nest Lake

Crow's Nest Lake was a popular resort on Sunday, parties from Coleman, Blairmore, Bellevue and from towns west enjoying its beauty and attractions, whilst a number of local fishermen tried their skill, but the fish were not biting. The cave, with its incessant gushing miniature waterfall, is always a source of attraction to visitors, and quite a number were there taking snapshots of the main source of the Old Man River.

Miners Exams Proceeding

Miners' examinations have been proceeding during the past two weeks in Coleman, the examining board being Moses Johnson, district mine inspector, of Blairmore, representing the Department of Mines, Alberta; David Davidson, of Coleman, representing the operators, and Enoch Williams, of Blairmore, representing the miners. The examinations are being held in the mine rescue car, which has been parked on the siding near the depot.

James Bruce, inspector under the Fire Prevention Act, of Medicine Hat, was here on Saturday, and drew the council's attention to a fire risk on Main street.

Alex. Rajacich Died After Short Illness

Leaves Wife and Five Children
Who Arrived From Serbia
a Month Ago

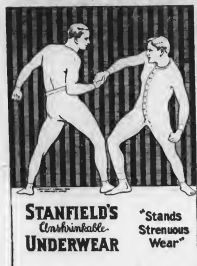

Sad indeed are the circumstances surrounding the death of Alex. Rajacich, an employee of the McGillivray mine, who after only three days illness passed away on Saturday last, the cause of death being blood poisoning which spread with startling rapidity, and despite all the aid that Drs. Morrish and Green could give, it was impossible to save his life. It is a month since he brought his wife and five children here from Serbia, after having worked here during the past two years and saved sufficient money for the purpose, having expended about \$800 on their passages. He was 42 years of age.

The funeral was held yesterday afternoon.

Will Erect Service Station

At the meeting of the town council last Thursday night the application of S. Moore to erect a service station on Main street, at the entrance to the International Coal Co. yard was granted.

SPECIALS IN Men's Wear

Keep cool by wearing light underwear during the hot months. Fine quality merino garments will give you comfort and pleasure in wearing.

The Canadian People

In rounding out the celebration of the Diamond Jubilee of Confederation, the Dominion Parliament is at the present time well up on more steps to further promote a united Canadian sentiment and develop a stronger Canadian national spirit by making legislative provision for the recognition of the Canadian race, and to enact that a person born in Canada, whatever their racial descent, shall be designated in the census returns of this Dominion as a "Canadian".

At the present time, tens of thousands of native-born Canadians are made to suffer a feeling of inferiority, not only in their own eyes but before the world, through their inability to record themselves as Canadians. Under the census regulations of the past they have been forced to designate themselves as English, Irish, Scotch, French, Dutch, German, American, anything but what they really are, Canadians.

As a result, the census statistics of this Dominion advertise to the world that this country of Canada is inhabited by all manner of races and conditions of people, except Canadians. That in all this broad Dominion, a self-governing nation in the British Commonwealth of Nations, with status equal to that of Great Britain itself, and a full-fledged member of the League of Nations, there is no such person as a Canadian.

If in England the same antiquated and obsolete system of census enumeration prevailed, many families who have lived in England for centuries would be compelled to classify themselves as Dutch, or French, or anything but English. The Grange, the Kluge, the Prince of Wales, and other members of the Royal Family would be recorded as German. In the United States, if our absurd system existed, there would be every known race under the sun, except Americans. It is the un-understandable insistence of the Ottawa authorities in this matter which is one of the miseries of people of other lands falling to understand and appreciate the national and international position of Canada today.

Furthermore, the existing state of things is most unfair to the people of Canada. There are thousands of Canadians whose parents, grandparents, great-grandparents, were born in Canada, and who do not know, and much less care, whether generations back their forefathers originally hailed from the British Isles, or the continent of Europe, or the East Indies, or anywhere else. "Canadians," that is good enough for them, and it ought to be good enough for the Canadian Government.

In some cases a man's great-grandfather may have been Scotch and his great-grandmother French; their son may have married a German; the female offspring of this latter union may have married a Christian, born in Canada but one of whose parents was a Hungarian, who in turn had Russian blood. What is the nationality of such a Canadian-born man? He himself does not know, and it is doubtful if the average census enumerator can figure it out. The only point on which the enumerator is clear, and because the Government in its instructions to him makes it absolutely clear, is the race, is not a Canadian regardless of the number of these generations of varying racial descent who were born in Canada.

"Canada our Country" was the motto of the Diamond Jubilee celebrations. "Our people Canadians" should be the record disclosed by the census returns, not a conglomerate mixture of peoples. Under the existing system of enumeration it is not at all surprising that so many false statements are being made to the effect that Canada is rapidly becoming a non-English country, and that the foreign-born predominate. If the children of three and four generations of native-born Canadians must still be classified as Russian, or German, or Austrian, anything and everything but Canadian, it is small wonder that the people who do not understand our uniquely adapted system are misled and arrive at conclusions the very reverse of true.

Canada's Diamond Jubilee year is a most appropriate time for Parliament to right this injustice to so many of its citizens and to the Dominion as a whole.

To Cross Ocean in Small Boat

Steel Vessel Twelve Feet Long Will Be Used By Daring Navigator

In a tiny, submarine-like steel vessel of his own construction, built during his spare time, William Oldham, of Warrington, Lancashire, proposes to set out shortly on an adventurous voyage from Dover to New York. The boat, which is only 12 feet long, with a beam of 3 feet, will be propelled by a navigator with a pedal mechanism much like bicycles operating the two blades of the propeller.

A "windmill" geared to the shaft will relieve him when the wind is fair. Two persons can be accommodated, although there won't be full length sleeping quarters. There are six water-tight compartments and

four gunnial windows. Oldham will be able to button himself down when the weather is bad and keep a lookout from a small "conning tower." He has estimated that the trip will occupy six days, and he is confident of finding some one to show the hazards with him.

Double Wedding In Airplane

Machine Carried Witnesses, Clergy, and Bride and Groom

For the first time in the history of aviation a double-marriage ceremony was conducted at Berlin, Germany, high in the air, directly over two churches. The vows were exchanged before a regular altar erected in the plane, while a phonograph reproduced organ music.

A. Roelbach-Roland plane, one of the largest air vessels of the Luftwaffe, had been transformed into a hall of flowers with the beautifully decorated altar in the center.

The new wedding couple returned to the Tempelhof Air Port, where they received the congratulations of numerous friends, and partook of a breakfast before starting on their respective honeymoon.

British Expedition To B.C.

Will Collect Rare Flower Seeds in Mount Garibaldi District

The Royal Horticultural Society of Great Britain, with its history of over one hundred years of good work, has decided to finance an expedition to the Mount Garibaldi district of British Columbia for the purpose of collecting seeds from the numerous rare and beautiful flowers which revel in the higher slopes of these grand hills. Dr. C. Bonnet, Lakeview, B.C., a rare plant specialist, is to organize and direct the expedition.

When a man has real troubles he keeps them to himself.

Quick Stop for Airplanes

New Device Will Permit Planes to Land on Roofs of Buildings

Airplanes can now be safely brought to a stop within a distance twice their own length under a reversible, stopper, arrangement patented by C. Francis Jenkins, noted Washington inventor.

The stopper cannot be operated until the plane lands. It is extended, and when thrown in position halts the airplane with the ease of powerful brakes.

The inventor believes his device will permit air fields for mail and commerce to be established on the roofs of buildings, eliminating the stowage and costly hauling of mail, express and passengers from suburban fields.

Sour Stomach Risings

Subdued by "Nerviline"

A Few Drops Bring Relief

The wonderful relief you get from twenty drops of Nerviline will surprise you. Take it in sweetened water, and all sour stomachs, flatulence, indigestion, and cramps will be relieved. When cold or cramps strike you at night, Nerviline is a sure relief. For general use, take five drops, for emergent ills, always keep Nerviline on hand. 35c. at all druggists.

Big Demand For Farm Boys

Waiting List of Six Hundred Farmers Reported at Calgary

Six hundred applications from farmers throughout Canada for boys to farm, according to Superintendent W. J. Stewart, the demand for boys is so large that no party which has arrived this year has stayed at the institution for longer than 48 hours. Applications have been received from agriculturists in Alberta and Saskatchewan, and even one from Quebec. The groups this year, though not so large as in 1926 are arriving more frequently, and the boys generally are of a better type.

DEBILITY DUE

TO INDIGESTION

Perfect Digestion Comes Through Rich, Red Blood

There can be no perfect digestion unless you have rich, red blood. This is scientific fact. It is also true that there is no tonic for the stomach that is not a tonic for every other part of the body. The way to tone up the stomach is to tone up the blood.

Many so-called stomach remedies merely try to digest your food for you, and you may wonder how you can tone up the stomach up that it will do its own work as nature intended. There is no doubt about it. Give me a good digestion. Tone up your stomach and your appetite and digestion will soon be normal.

If your digestion is weak and your blood thin you need the help of Dr. Williams' Pink Pills to enrich the blood and restore strength. In addition you cure in the selection of your food. Eat what is good for you, and you will find that it will do its own work as nature intended. There is no doubt about it. Give me a good digestion. Tone up your stomach and your appetite and digestion will soon be normal.

"Something over a year ago I was a gaunt, thin man when I was taken sick. I felt very miserable and lost twelve pounds in weight. I did not sleep well and could not eat as I could scarcely retain anything in my stomach. I went to a local doctor who told me the fumes of the gas had got into my system. He gave me some medicine and told me I had better go to the country for a change of air. I did so, but I still felt miserable and groggy, and had no ambition. On the advice of a friend I decided to try Dr. Williams' Pink Pills. I had not been taking the pills long before I was beginning to feel better, and to eat fairly well. I kept on taking the pills until at the end of the seventh week I began to feel much more. I had gained the weight I had lost, slept well and could eat anything. I felt strong and healthy and cannot say too much in praise of Dr. Williams' Pink Pills. You can get these pills from any medicine dealer or by mail at 50 cents a box. From Dr. Williams' Medicine Co., Brockville, Ont."

Teacher: "For men must work and women must weep." What is the meaning of that line, Tommy?" Tommy: "It means that men have to go to work to get money, and then the women have to cry before the men will divide it with them."

Fined For Laughing

Display of Mirth Leads to Trouble in German Town

At Setlin, in Germany, laughter is liable to lead to trouble.

A German couple, Herr and Frau Steamer, stopped out of a shop while the latter told her husband a funny story. The husband burst into a hearty guffaw, whereupon a policeman rushed to the scene, charged the husband with disturbing the peace, and fined him a dollar on the spot.

This remark so tickled the laughing husband that he could not keep solemn any longer and enjoyed another hearty laugh. He was fined \$2.50. Still with a smile on his face Steamer handed the clerk fifty cents to the official to clear him with \$5.00 on his next laugh. "Content of court," said the Bench, and find him \$12.50.

Wheat Pool Agency

For South America

Western Canadian Wheat Pool Will Establish Selling Agency in the Argentine

W. J. Jerkins has been appointed resident representative in the Argentine for the selling agency of the three Western Canadian wheat pools. He will leave for his new field of work early in September and will have his headquarters in Buenos Aires.

The appointment is the outcome of a scouting trip that Mr. Jerkins made to South America last year for the purpose of inquiring into the general conditions of the wheat trade in that country. It has since been decided that the wheat pools will be permanently represented there and while the office will be of a somewhat experimental character it is intended to give it a thorough trial, in expectation of the two countries coming into fairly close relations as both producers and exporters of wheat.

Airships Terminal Planned

\$350,000 To Be Spent On Equipment In South Africa

Plans concerning the projected terminal and ground equipment for an airship terminal in the Union of South Africa are almost completed. It is agreed that the airship service shall be controlled by the Union of South Africa, and that approximately \$350,000 will be spent on the most efficient. It is understood this will be located near Cape Town. The Government cannot afford to construct a terminal in the Union of South Africa, but the Empire's contribution to a better Empire airship service.

Miller's Worm Powders are sweet and palatable to children, and they are not heaty in taking them. They will certainly bring worm troubles to an end. They are a strengthening and stimulating medicine, correcting the disorders of digestion that the worms cause and restoring healthy tone to the system most beneficial to development.

Sorting Mail In Air

British Air Ministry Is Making Test of Special Plane

An aeroplane specially designed for the mail transport of mail is being tested by the Air Ministry. It will carry, besides the pilot and an engineer, a postal sorter, who will continue his work while flying at 100 miles an hour.

This latest type of mail aeroplane is fitted with a parachute, and instead of the usual tail skid has a steerable tail wheel, with powerful brakes, to help the machine up quickly on alighting at small aerodromes. A central engine room contains two Napier engines, each of 500 h.p.

Nothing as Good for Asthma. Asthma remedies come and go but every year the sales of the original Dr. J. C. Kellogg's Asthma Remedy grow greater and greater. No further evidence could be asked of its remarkable merit. It cures. It is always the same unvarying quality which the sufferer from asthma learns to rely on. It is not a temporary relief, but get this asthma remedy today.

Mapping Canada From the Air. Since 1921 when aerial photographic surveys were begun by the Topographical Survey of the Department of the Interior, 25,600 square miles in Canada have been covered by vertical photographs and 127,700 square miles by oblique aerial photographs.

Canada's gross agricultural wealth is nearly eight billions, increasing nearly three-quarters of a billion in three years.

The way to see the virtues of a trust is to become a stockholder.

Farmers Market Tour

An Exceptional Opportunity For Farmers of Western Canada to Visit the Old Land

The British market must ever remain the most desirable outlet for Canadian farm products. As a result of keen competition from other countries, it is vital that the Canadian farmer should become familiar with this most desirable outlet.

Agriculturally trained observers from this country have had this privilege, many would welcome the opportunity of making an intimate study of marketing conditions at first hand. There has therefore been organized a "Farmers' Marketing Tour" by the Department of Agriculture of the Canadian National Railways. This tour, which will be open to any Canadian farmer, will be of some seven weeks duration, leaving Halifax January 8, next, with a full month spent in the old land, during which important marketing centers in England and Scotland will be visited, and the famous breeds of livestock have been developed, will be visited, with a side trip to Denmark for a study of co-operative marketing in that country.

The tour originated by Dr. W. J. Black, director of colonization, agriculture and natural resources, on the Canadian National Railways is being planned to provide the farmer with educational value, combined with all the pleasures of the ordinary sight-seeing tour. The study of conditions abroad by a large group of observers from the farms in Canada should have great results in the successful application of the knowledge gained on such a tour to the general improvement of the agricultural industry in Canada.

The tour is essentially for the Canadian farmer. Any farmer anywhere in Canada, or anyone vitally interested in agriculture and marketing problems, and in the development of wider markets for Canadian products, may join the tour, and it will also be possible for women who are interested in any phase of agriculture to go.

The cost of the tour from the time of leaving Halifax, Canada, until the return date will be \$2500. This cost includes all ocean fares and meals, railway and bus fares in the old land, accommodation at good medium-class hotels, meals and ordinary costs incidental to the tour while overseas.

In addition, members of the party will pay their railway fare and cost of their baggage to the port of departure at special rates provided, and will be required to bear passport costs, Government charges, and membership fees on board ship crossing the Atlantic, and personal expenses such as laundry, etc. No additional charges of entertainment incurred by themselves.

Accommodation is being provided by the White Star Line, Canadian Pacific, and the P&O. The party will sail on the steamship "Venezia" on Sunday, January 8, next, the accommodation for the party being tourist class, with run down to the ship, and the return voyage will be made on the steamship "Alberta," sailing from Glasgow on February 17th. The accommodation for the party on this ship being tourist class. The accommodation and service on these ships, including breakfast, evening meals, and the party is assured of a pleasant and comfortable voyage. Members of the party wishing to remain longer in the old land may arrange for similar accommodation on any later date, through the White Star Line office overseas.

Further information may be secured about the "Farmers' Marketing Tour" by communication with W. J. Black, director of Colonization, Agriculture and Natural Resources, Canadian National Railways in Canada.

Insulin Capsules Made

Insulin may now be taken in capsules, according to investigators at the University at Breslau, Germany, who claim to have found a substitute for the hypodermic needle. Therefore the remedy for diabetes could not be given in the form of drops, powders or tablets, but must be injected under the skin. Prof. J. C. Bonnet, who conducted the method of giving insulin has been effective in a number of cases.

Alberta Fur Production

Official figures show that Alberta's total fur production for the fiscal year 1925-26 was valued at \$2,121,778.30. This represents a gain of \$90,000 over the preceding year, and puts Alberta in third place among the provinces in the value of furs produced.

A London school started primarily to teach languages, now finds most of its pupils among American tourists who are anxious to acquire an "A" grade within a short time. A class where popularity is a course in "curing" accents.

By a new device an approaching train complicates a circuit and thus commands attention to a commanding position, rings a bell and displays a danger flag.

Gum-Dipping

A Firestone Contribution to Economical Travel

The greatest enemy to tire life is not the chipped-up road, the broken pavement or the harsh grind of rough city streets—but heat, which is caused by internal friction. Heat not only weakens the fabric, but also softens the rubber and causes blowouts and tire failures.

Firestone chemists and engineers knew that if they could find a way to eliminate this destructive heat and internal friction, the mileage giving qualities of tires would be greatly increased. Such a method was found and called "Gum-Dipping."

The Gum-Dipping process is one of Firestone's contributions to economical travel—in fact, it is the most important every fiber of every cord with rubber, reducing internal friction and at the same time making the dipping process by a stronger union of rubber, thus giving greater strength and flexibility to the tire.

Firestone dealers everywhere—familiar with Gum-Dipping and its advantages—will gladly explain how thousands of extra miles are built into Firestone tires by this exclusive method. Take advantage of the Gum-Dipping process to lower your tire costs this year.

Enthusiasm of Youth of Country

Russia Preparing For War

Military Sports Advocated to Awaken

A campaign is on foot throughout the Soviet Union for the promotion of military preparedness in the face of recent developments, which are regarded as a great peril. The period from July 10 to July 17, designated as "defense week," to ward the success of which all efforts were directed.

Military sports are being strongly advocated as a means to arouse the enthusiasm of the youth of the country and the heads of the unions are exhorting their members to rally around "Osovozhok," Russia's great voluntary martial organization. The latter is headed by Alexis Likhov and War Commissar Voroshilov, and its members are said to number millions.

The Family Physician.—The good doctor is always worth his fee, but it is not always easy to get a doctor when you want him. In such cases, common sense suggests the use of reliable home remedies, such as Dr. Thomas' Electric Oil, which is wonderfully effective in easing infant pains and healing cuts, sprains, rheumatism, etc. The presence of this remedy in the family medicine chest saves many a fee.

A Mammoth Whitefish. A whitefish weighing 125 pounds, dressed, was netted in Cedar Lake, east of St. Paul, Manitoba, recently. The fish heralds says this is probably the longest fish of the species ever taken in northern waters.

Corns cannot exist when Halloway's Corn Remover is applied to them, because it goes to the root and kills the germ.

Oysters and clams contain about 100 times as much iodine as beef steak.

CHOLERA, CRAMPS, PAINS IN THE STOMACH RELIEVED BY

Dr. Fowler's EXT-OIL OF WILD STRAWBERRY

Mrs. D. Leavitt, Back Bay, N.B., writes: "Last summer my children had a bout with cholera and suffered severely from cramps and pains in their stomachs. I tried several remedies, but nothing seemed to do any good. A friend of mine told me to try Dr. Fowler's Ext-Oil of Wild Strawberry. I got a bottle and gave them a few doses and they soon found relief. Now I will never be without it in the summer months."

Don't Accept a Substitute This preparation has been on the market for 30 years, put up only in the U.S. Maltin Co., Inc., Toronto, Canada.

FACE LOOKS TERRIBLE

Pimples Were Awfully Painful. Cuticura Heals.

"A small pimple appeared on my chin and it was causing me much trouble. The pimples were hard and sore and I was unable to scratch them. They festered and were awful painful, and my face looked terrible. I was discouraged because when I went out it seemed as if everyone was looking at me."

"I began using Cuticura Soap and Ointment and in a week's time I could see they were getting better. I continued using them for a month and the pimples disappeared. I was healed." (Signed) Mary H. Borden, P. O. Box 1, Nov. 19, 1926.

For every purpose of the toilet and bath, Cuticura Soap, Ointment and Talcum are excellent.

W. N. U. 1639

SOIL SCIENTISTS MAKE TOUR OF WESTERN CANADA

Regina.—Representing 20 different countries and 25 different languages 150 soil experts from all over the world visited Regina and paid a visit to the experimental farm at Indian Head. The visitors were enthusiastic about the development of the country and spoke in glowing terms of the wonderful soil that is to be found in western Canada.

The visitors were recently present at the International Soil Conference held in Washington, D.C., when delegates from practically every nation in the world were present. At the conference matters pertaining to soil formation and soil culture were discussed, and at the conclusion of the conference the Association of Soil Science tendered the tour to the visiting delegates.

"You have most wonderful soil here," said one delegate from the U.S.A., "and, with judicious farming, it is safe to say that it would never be outworn."

Prof. Joel estimated that the Russian delegates seemed to be the most interested in the soil of Saskatchewan because it was very similar to that of their own country. "All the visitors were impressed by the excellent development of this country," said the professor.

In speaking of the work of the Association of Soil Scientists, Dr. Shriener who is one of the guides on the tour, said that the main object of it to bring about a general classification of soils. "Hitherto," said Dr. Shriener, "there has not been the necessary classification of soils, of which there are some 500 kinds, and our object is to have these so classified that each nation in the world will know what the other is talking about."

"On this tour, which is a complimentary one tendered to the visiting delegates, to the convention, we have inspected all the different belts of soil in the U.S.A., from the cotton belts to the arid deserts, and we are now inspecting the grain belts of Western Canada."

"At each spot we touch a trench about six feet deep in the soil and we therefore able to judge the quality of the sub-soil in that particular area."

Toronto Man Captures Trophy

W. A. Hawkins Wins Prize of Wales' Race at Blaisy

Blaisy, Eng.—Company Sgt.-Major W. A. Hawkins, Toronto, won the Prince of Wales prize in competition with hundreds of marksmen from all over the Empire. His score of 59 out of a possible 100 was highest recorded in the shoot which was won by five rifles at 300 and 600 yards. He wins the prize of \$500 and the National Rifle Association badge.

Hawkins won the King's prize in 1913.

Exceeds Official Estimate

Value of B.C. Agricultural Production Greater By \$2,000,000

Victoria, B.C.—Agricultural production in British Columbia last year totalled \$7,362,200 broke all previous records and topped earlier official estimates by \$2,000,000, according to final figures given out by Hon. E. D. Barrow, Minister of Agriculture.

The 1926 figure was an increase of \$8,088,686 over that of 1925, or a gain of 95.3 per cent, which compared with the output two years ago it marked an advance of over one hundred per cent.

Floods in China

Shanghai.—More than 1,000 persons are reported to have been drowned and tens of thousands of people rendered homeless by floods in South Anhui province, according to belated reports received here. The floods are reported to have taken place July 5.

Manitoba Pioneer Dead

Winnipeg.—Charles W. Barker, 77 year old pioneer of Manitoba, is dead here. Mr. Barker first came to the west in 1852 and helped to lay the Canadian Pacific line through the Crowns Nest Pass. He was a native of Colborne, Ont.

Release Madame Borodin

London.—Madame Borodin, the wife of Michael Borodin, advisor to the Hunkow Government, who has been under arrest at Peking, has been released, according to the Daily Mail's Peking correspondent.

W. N. U. 1926

Will Execute Wife Of Naval Commander

Aided Husband in Espionage for Britain Is Bowled Change

Moscow, Soviet Russia.—Mme. Klopikoff has been sentenced to death by a court martial at Kronstadt, on the charge of aiding her husband, Commander Klopikoff, in espionage for Great Britain. Klopikoff, who formerly commanded a ship in the Baltic fleet, was executed by a firing squad recently after being found guilty of espionage. He was alleged to have confessed to giving a report to a British intelligence agent in Finland containing information on the condition of the Soviet armed forces, particularly the navy.

At the same time Mme. Klopikoff was sentenced to three years imprisonment for complicity, but the supreme court failed to confirm the sentence. She was then brought to trial before a court martial.

President of Alberta Law Society Dead

Dr. Conybeare Was One of Leading Lawyers in Province

Lethbridge, Alta.—Dr. C. F. Conybeare K.C., dean of the Lethbridge bar, died suddenly at his home, July 12. Heart failure was the cause. Dr. Conybeare, who was 61 years of age, was born at Little Sutton, England, and came to Lethbridge in 1886 from Winnipeg. He had been Crown prosecutor here during the whole of his career in Lethbridge.

He was president of the Alberta Law Society, succeeding the late James Muir. Dr. Conybeare, besides being one of the leading lawyers in the province, was also a member of the Knights of Pythias and had been grand lodge officer for many years. He was also a poet and writer of some note, being especially well versed on Indian lore.

Editors Will Visit Prince

British Newspaper Men Going to Ranch at High River

Ottawa.—The party of British newspaper men and their wives that will arrive in Quebec on August 12 will pay a visit to the Prince of Wales ranch at High River, Alta., on August 24 according to word received here. It is expected that the Prince and his brother Prince George will be at the ranch at that time and that they will personally receive the visitors. The party will be the most distinguished newspaper group that has visited Canada since the Imperial Press Conference in 1920.

Sales Show Increase

Life Insurance Business in Canada Reaches High Record

Montreal.—Eighteen per cent, more ordinary life insurance was purchased in Canada during the month of May than in May, 1925, according to the Life Insurance Sales Research Bureau. During the month, \$44,353,000 of new business was paid for by companies having in force 84 per cent of the total outstanding business in Canada. This is the highest record ever made in any month with the exception of December, 1926, and May sales are only \$2,813,000 below the December record.

Put Ban on Gun Dance

Paynton.—The Indians began their gun dance a week ago on Poundmaker's Reserve nine miles south of Paynton. For several days Indians from the north had been coming in large numbers to take part in the dance, Tuesday a R.C.M.P. officer from Battleford arrived and stopped the dance, which is forbidden by the Dominion Government. Four of the leading Indians were taken to Battleford and were later released.

French Armed Sloop at Montreal

Montreal.—The Violette is an armed sloop belonging to the French government, her mission at the "dip" in response to the same courtesy from steamships lying in the harbor. She is slowly into Montreal recently. She is under the command of Captain Emile Antoine, of the French navy, who paid a visit to the French consul immediately on arrival. The ship will remain here for a week, and will later proceed to Quebec.

Recent Elacts Conservative

Winnipeg.—Dr. E. T. Rutledge, Conservative, was declared officially elected to the Manitoba Legislature following completion of a recount in the constituency of Minnedosa where he was defeated by a majority of three votes over his Liberal and Progressive opponents on election night. The final figures gave Dr. Rutledge a margin of 14 votes.

Wild Animal Invasion Cougars and Bears Reported Proliferating in Vancouver District

Vancouver.—The latest report in what seems to be a wild animal invasion of Vancouver and vicinity was that a woman had seen a cougar in Stanley Park here. She was confident that it was not a dog or any large tame animal. Officials doubt that a cougar would be in the park but are combing the woods. A cougar was found in the park some years ago.

Pitt Lake, some miles from the city, reports that two loggers were absorbed by a tree by bears. The animals were so numerous and bold around the camps in the district that they have broken into parties and taken food, scores of berries in the wilds being given as the reason for the influx. A number of bears weighing from 100 to 500 pounds have been shot. Similar reports have been made from other localities. At Seymour the bears have shown a taste for bacon, mutton and cheese. A number of goats have been killed. A bear was seen on the Burnaby Lake Interurban line near here, while three skunks were killed on the same line, necessitating fumigation of the Interurban.

GRAND TRUNK SHAREHOLDERS WANT TEST CASE

London.—Lord Askwith chairman of the Grand Trunk Railway, Junior stockholders organization, at an extraordinary general meeting of the shareholders here after resolutions had been passed asking for the conversion of the existing £1 shares into preference shares, mentioned that a meeting of the old Grand Trunk proprietors would be held to decide on what measures to adopt in the interests of those concerned.

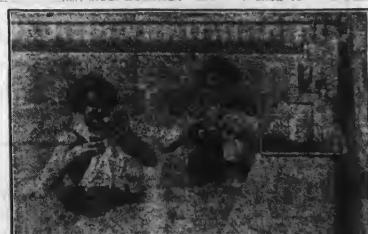

Lord Askwith suggested that the stockholders should provide a test case for the purpose of making a test case of their rights and after quoting the opinion of Sir John Simon, who has been associated with other eminent lawyers in the matter, said the committee did not feel justified in abandoning the case without taking legal proceedings.

The resolutions passed at the meeting provided for the conversion of the existing £1 shares into preference shares with priority as to capital, the increase of the capital from 10,000 shares of £1 each to £52,000 by creating £50,000 new ordinary shares of a similar class and also providing for changing the organization's name to that of the Grand Trunk Junior Stocks, Limited.

The Grand Trunk Junior stockholders, several years ago, became incorporated as a private limited company whose objects were "to secure and obtain and receive compensation as an act of grace or otherwise for the former holders of first, second or third preference and ordinary stock."

Ottawa.—The Canadian Government will not take any immediate action as a result of the decision of the Grand Trunk Railway Junior stockholders' organization, it was officially stated here.

"The Government will meet the legal situation when it arises in the definite form," Hon. C. A. Dunning, Minister of Railways and Canals, said, after reading London despatches reporting the action of the stockholders.

Lunch Swimming-Pool Style

There's nothing like a bite to eat after a swim. At least that is what these young ladies maintain and from the general consensus of opinion they aren't far wrong.

The photograph was taken recently at the Chateau Lake Louise swimming pool and not the least of its attractive features are the two young ladies who decided that the invigorating water of the pool was too much for their appetites. The waiter admitted that serving lunch swimming

STUDENTS FROM OLD COUNTRY AS HARVESTERS

Montreal.—Canadian Pacific steamship arrivals over the week-end in the Montrose, the Melita, and Empress of Scotland—brought over 1,200 newcomers to be added to Canadian population. Practically the entire week-end immigration quota will be absorbed by agriculture or domestic service.

A party of 50 students recruited from various universities and agricultural colleges in the British Isles is coming to aid in the gathering of the Western Canadian harvest. These first arrivals will proceed direct to Toronto, where they will be placed by the Ontario Government on provincial farms for a month's stay. At the end of this period they will travel west to be absorbed in harvest work in Saskatchewan through the agency of the British Immigration League. This party constitutes only the vanguard of the student army to attack the western Canadian wheat crop. Up to three thousand students are expected.

Given Control Of Indian Reserve Roads

British Columbia and Federal Governments Reach Agreement

Victoria.—By an agreement between the British Columbia Government and the Federal Government, roads through Indian Reserves in this province will be owned by the province, at present they are owned by the Federal Government for its wards, the Indians.

The arrangement will be ratified formally shortly following negotiations between Hon. W. H. Sutherland, minister of public works, and the Federal authorities.

Insect Plague in B.C.

Grasshoppers Threaten Serious Loss to Agriculturists

Victoria, B.C.—Tons of poison bait are being sent out by the department of agriculture to combat threatened serious losses in agricultural areas of British Columbia from insects. Reported in their natural progress by grasshoppers are beginning to hatch out in millions while the clover root borer has appeared in the North Okanagan district apparently from the State of Washington, where the insect makes clover-growing in some districts impossible.

Earthquake in Palestine

London.—The Daily Mail's Haifa (Syria) correspondent says that 150 persons were killed in the earthquake which Palestine and Trans-Jordan and that more than 700 houses in Jerusalem and the surrounding districts were damaged. These include the Greek convent and the Patriarch's residence on the Mount of Olives. A minaret fell while a sheik was reciting prayers, killing him.

Divers Locate Valuable Cargo

Genoa, Italy.—Divers have succeeded in locating the steamer Washington, which was sunk in October, 1917, by a German submarine while on a voyage from America to Genoa. The vessel at Campbell not far from Genoa. The Washington had a cargo of copper worth \$60,000,000, which it is hoped to recover.

Rapid Transit Plans

American Railroad May Use Pullmans by Night and Aeroplanes by Day

Washington.—The statement of William F. Macfarlane, Jr., assistant secretary of the department of commerce for aviation, made at Cedar Point, Ohio, that five railroads are planning to use aeroplanes to supplement their services caused much comment here. The Government will encourage the carriers in this program.

Railroad managers have in mind a part rail and part air trip from New York to the Pacific coast. It was pointed out it would soon be possible for a person to travel by train from New York to Chicago by night, take a plane from Chicago to Salt Lake City by day, and shorten the time to the coast materially. This is only one of the long jumps that can be made Pullman by night and aeroplane by day. This sort of combination transportation, it is believed will become popular within a few years.

Hog Grading Regulations

Owing to Criticisms New Ruling Will Not Be Enforced at Present

Ottawa, Ont.—As a result of criticism received by the department of agriculture in connection with the new hog grading regulations, it has been decided not to put them into effect July 15. It is probable that some change in the wording will be made and that the new draft will not go into effect until August 1 or later.

In addition to the need of changes in the regulations, there are administrative difficulties in the way. It is understood that some of the parties whose cooperation is essential if the grade of hogs is to be carried back to producers, are not now willing to assist in the scheme, several conferences have had to take place before the problem will be solved.

Meanwhile the whole situation will be discussed at a meeting of the swine committee, to be held in Regina on July 15. The federal department will be represented by J. C. McOut, of the livestock branch.

Ontario Wheat Pool

Eastern Provinces Have Affiliated With Western Organization

Toronto.—For the purpose of marketing its product, the newly formed Ontario Wheat Pool has affiliated with the similar organizations in the western provinces and it is expected will have representation on what is known as the Central Selling Board for the western pools. Members of this board have arrived in Toronto to complete arrangements. The members of the board will stay in the city until details of the affiliation have been completed.

VISITOR URGES EXTENDED TRADE WITH AUSTRALIA

Winnipeg.—"Though the products of Australia and Canada are similar, there are many opportunities for trade between the two countries," said Sir George Fairbairn, agent general for Victoria in London, England, who arrived in Winnipeg over Canadian Pacific lines. Sir George, who is accompanied by Lady Fairbairn, is en route to his home in Melbourne, and will spend several days at Lake Louise and at Vancouver, before sailing on the Aorangi, July 27.

"Wool and lumber are the two great exchanges we can make commercially," continued Sir George, "though dried fruits are fast becoming a source of revenue. The government has established returned soldiers on fruit farms in the irrigated district of Victoria and New South Wales, and they are successfully growing apples, pines and other fruits which, dried, are finding a large market."

"Much of the land which formerly was used for sheep farming has been bought back by the government and sold to settlers with the idea of growing wheat. The Commonwealth is now settling about one-third of Canada's production. Irrigation is doing its part in agriculture; within the next three years, we expect to put into operation what will be the third largest reservoir in the world. Fed from the Murray River, this reservoir will have 3,000 miles of channels, covering 2,000,000 acres. This means that a depth of 12 inches can be poured over 2,000 acres. The cost of the work will be in the vicinity of \$10,000,000," Sir George said.

Lady Fairbairn has made many trips across Canada going back and forth to school in England.

ARRANGE PLANS FOR TOUR OF ROYAL PARTY

Ottawa.—The plans for the tour of the monarchs' entourage from all blame to the Prince of Wales and Premier Baldwin are being drawn up to provide as far as possible for holidays for the distinguished visitors. It is to be hoped, stated a member of the Government today, that the public would regard the Prince and the Premier as guests of Canada and do everything possible to make the trip a pleasurable one.

So far as an official program can regulate, the various receptions throughout the country are to be brief with the object of allowing as many as possible to see the Prince and Mr. Baldwin rather than allowing a more limited number to hear public addresses.

It was pointed out today by a Cabinet minister who has been active in arranging the visit, that Mr. Baldwin is coming to Canada on a holiday trip and while he will speak several times, he will endeavor to secure rest and diversion from his own work during the few days he is to be in Canada. It all will be barely 20 days of the luncheon.

As has been previously stated the royal party and the Prime Minister's party will separate at Banff. Mr. Baldwin will return east with the Prince and his brother, Prince George, will go to the E.P. Ranch, Once in his own Canadian home, the Prince's visit to Canada in the official sense is over and His Royal Highness will make his own plans. It is expected that within a few days the official itinerary will be made public.

Workman Exonerated

Coroner's Jury Finds Paint Remover, Compound Responsible for

Vancouver Fire
Vancouver.—David Henderson, 52, painter, charged with manslaughter after the Royal Alexandra Apartment fire which took eight lives here, was exonerated of all blame for the tragedy by a coroner's jury at the close of the inquest this afternoon.

The verdict, returned by the jury after two hours' deliberation, read as follows: "We find that the fire caused by use of a paint remover preparation, now proved to be of a highly inflammable nature, in suite 401, and which took eight lives here, was strictly prohibited by the city fire by-laws."

"David Henderson, user of the paint remover, the said paint remover, or having been supplied him by the management, and the dangerous nature of which he was ignorant, we exonerate entirely from all blame in being the cause of the fire."

"We strongly censure the owner of the building, C. B. Lighthouse, for supplying and permitting the use of such a dangerous compound, and we strongly deprecate the sale of it to the unsuspecting public."

Succumbs To Injuries

Cecil K. Parrish Dies as a Result of Automobile Accident

Winnipeg.—Succumbing to injuries received in an automobile accident on the Beach road Saturday, Cecil K. Parrish died at St. Boniface hospital on Tuesday evening.

The late Mr. Parrish was well known among the "pioneer business men" of Winnipeg, and for more than twenty years has been in the employ of the Toronto Type Foundry Co., Ltd., as accountant. He was a member of the Traffic club, but it was in bowling circles that he was most widely known, and had served on the executive of the Winnipeg Bowling Association every year since its inception. At a recent proposition he never sought to put himself forward, but was always untiring with his time in the furtherance of anything in which he was interested.

Will Be Guest of Honor

Toronto.—Succeeding to Barry, chief justice of England, will address the Canadian Bar Association annual meeting here this month and be guest of honor at the dinner on August 23 to be given by the Law Society of Upper Canada in the honor of the Canadian Bar Association and its distinguished visitors.

Queen Victoria's body was recently put on exhibition at the State Apartments of Kensington Palace.

CROWS NEST PASS MOTORS

Blairmore Phone 105

Bridges In Bad Condition

Complaints have been made from various sources during the past week or two on the condition of bridges on the road between Coleman and Crow's Nest, B.C., and residents and visitors alike have joined in the chorus. If the bridges complained of are only for temporary use, they should at least be made safe for automobile traffic, for this is an important highway and the only connecting link west with the Banff-Windermere trail so much talked of among Alberta's highways as an attraction for tourist traffic. Coleman in common with other towns on this highway stands to benefit from tourist traffic. There is an excellent highway from Pincher Creek right through to Crow's Nest, which tourists find a delight to travel on even in wet weather, yet if because of a few bad spots the road is avoided by tourists, the whole territory through which the road runs is bound to suffer. Thousands of dollars have been spent on this highway, yet it will not be made general use of if there are places where tourists would rather turn back from than take a chance over, as happened this week with parties coming from the west, and who turned back to go via another trail instead of continuing the journey through The Pass eastwards. There evidently is work to be done by the automobile club or the Good Roads association in bringing this to the attention of the authorities responsible for the maintenance of the bridges complained of.

Tennis Players Are Winners at Corbin

Very Hospitably Entertained by
Corbin Club, and Coleman Won
Eight Games Out of Ten

Coleman Tennis Club was well represented at Corbin on Sunday, and were again victorious in most of the events played. The visitors are loud in their praises of the cordial reception accorded them by the Corbin club, which helped to make a very enjoyable visit.

The list of games is as follows: McLeod beat McKenzie, McDonald beat Grieve, Barnes lost to Hinks, McLeod and Barnes beat Hinks and McKenzie, Mrs. Purvis and Miss Fraser beat Mrs. Hinks and Mrs. Almond, Mr. and Mrs. Purvis beat Mr. and Mrs. Hinks, Miss Fraser and Mr. McDonald, beat Miss Almond and Mr. McKenzie.

Complete Shut-Out for
Coleman at Fernie

Local Nine Suffer Reverse Disap-
pointing the Fans Who Had
Expected Close Game

Coleman Cubs never got a look-in
on Sunday at Fernie when they
played the return game following
their splendid exhibition here a
week previously, for the Fernie
nine scored nine runs while the
visitors never had a look in. The
first inning saw their nearest ap-
proach to scoring, with men on
bases, but with two men down
they were not able to make a hit to
bring in a run.

Polychuk was pitching for Cole-
man with Gardner catching, and
after seven innings Milley and Gate
were substituted, Milley holding
the Fernie boys down so that they
did not add to the score, he striking
out four men in the eighth and
ninth innings.

There was a fair attendance at
the game, a number of Coleman
supporters going up by car.

Sunday, July 24

2.30 p. m. Sunday School.
11 a. m. Morning Worship.

7 p. m. Evening Service.

You will enjoy the congregational
singing. Strangers and visitors cordially
invited to the services.

H. J. Bevan, Minister.

Two Car Accidents
on Sunday Last

Car Skidded Off Grade On Blair-
more Road—Steering Gear Broke
on J. Chisholm's Car

Driving a Chevrolet touring car
between Coleman and Blairmore
on Sunday evening, Joe Faurille,
of Coleman, turned out to allow an-
other car to pass, when the car
slipped off the grade, turning over
and throwing the occupants out.
Miss Violet King, of Bassano, who
has been visiting with Mrs. Hugh
Dunlop, was badly shaken up and
bruised, necessitating her removal
to the hospital, and the other oc-
cupants of the car were able to pro-
ceed home after receiving first aid.

A second accident occurred the
same evening near Crow's Nest,
when the steering gear of Jack
Chisholm's Dodge touring car broke,
the car turning over completely
twice, but beyond a shaking up,
none of the four occupants was in-
jured. The car was abandoned and
the party came the rest of the way
by train. They were returning
from the ball game at Fernie. In
the party besides Mr. Chisholm
were W. Chapman, W. Russell and
B. Pollak.

S. A. Charioteers Coming

The Gospel Charioteers of the
Salvation Army will visit Coleman
on Sunday, and will hold open air
meetings. They are visiting the
town in the West, including Belle-
ue and Blairmore, being at those
places on Friday and Saturday.
The party is making a tour of the
entire province, and is being accord-
ed a warm welcome by Salvation
Army workers at the various points
visited. Captain Hind, the local
officer in charge, invites all inter-
ested to attend the meetings.

Mr. Haney, of the staff of the
East Kootenay Power Co. plant
west of Coleman, left on Wednes-
day for Montreal.

Coleman baseball nine won from
Blairmore Tuxis last evening with
a score of 15-6. Quite a number
witnessed the game.

New Printed Voiles
And Dimities

New themes, new colorings, new ideas are
to be seen in the dainty display which is
particularly enticing. The note of economy
has not been overlooked, for we assure you
that prices are lower than most anywhere
else.

WORLD HAPPENINGS
BRIEFLY TOLD

H.R.H. the Prince of Wales will visit Vancouver and Victoria after August 10.

The population of Edmonton, as shown by the official city census figures made public today, is 67,932, an increase of 1,920 over the Dominion Government totals of last year.

An increase in wages and adjustment of working rules is sought by Canadian National telegraph employees, who started negotiations with the management through the international union representatives.

The New York Herald-Tribune says that Colonel R. Rex Remond, former officer of the Lafayette Escadrille and World War ace, announced that he would attempt a flight to Paris and return in 24 hours. The hop will be made in September, he said.

It is possible that Australia's 1931 exhibition may be of a British Empire character. There is a suggestion that the King may be invited to open it, but, as His Majesty is unlikely to go, the Prince of Wales will be invited to perform the ceremony.

Hemstedt entries for the first five months of the present year in the four western provinces total 2,261, as against 2,281 for the corresponding five months of last year. Saskatchewan heads the list with 1,238 entries, followed by Alberta with 915, Manitoba with 272, and British Columbia with 37.

Mr. Hon. Ramsey MacDonald, leader of the Labor party in the United Kingdom, will not accompany Hon. Charles Dunning and party to the Hudson Bay this summer. Mr. Dunning is as yet unable to fix the time for his trip. He has not yet heard when Frederick Palmer, the port engineer, will reach the capital.

Twenty-five thousand copies, sent by the Canadian Government for free distribution in England, arrived in Liverpool on the liner, Albert. A staff of girls sent by a London florist immediately began the task of transferring bunches of flowers into 2,500 cardboard boxes for despatch to members and officials of public bodies all over the country.

To Colonize Palestine

Canadian Zionists Subscribe to Large Funds for This Purpose

Plans for the colonization of Palestine and for the restoration of the native land to the Jews met with unanimous approval and delegates who attended the 21st convention of Canadian Zionists in Winnipeg.

The situation in Palestine, conditions as they are today and as they were half a century ago were vividly told to the delegates by M. E. Elishkin, chairman of the world national fund for restoring Palestine to the Jews, and other noted Zionist leaders at the concluding session of the convention. A million dollars fund is being collected for the purchase of land in Palestine and at the convention more than \$300,000, the quota set for the Canadian Zionists was subscribed. Mr. and Mrs. A. J. Friedman, of Ottawa, chairman of the Canadian council, and president of the Haddanah, the women's organization, respectively opened the fund with a subscription of \$50,000.

Is Still To Come

Day of Farmer Has Not Passed in Canada

Essentially Canadians and especially those born and raised outside the big manufacturing centres, will realize that modern industry has its ups and downs, and the high wages of one year may be followed by near-starvation the next. It is then that the wanderer turns to the farmland and probably does some deep thinking regarding the future. The day of the farmer has not passed in this land; it is still to come. At the present time the tiller of the soil may not be striding a rapid road to fortune, but at least he has independence and, with few exceptions, has little worry about his means of livelihood in the future.

Shelley the poet, so enjoyed watching the progress of a paper boat on a stream that he is said to have fashioned one from a fifty pound note on one occasion when he had no other material.

Almost any one will take your advice, but one out of a hundred will generate faith enough to use it.

The important event in many a man's life is an accident — the accident of birth.

About the only way to convince a contrary man that he is wrong is to agree with him.

W. N. U. 1999

Weird Trip On Mountains

Hazards of Mountain Climbing in District Near Jasper

Three first ascents of peaks in the 11,000 foot class and the opening up of a new route to one of the 12,000 foot class peaks of the great Columbia range, all accomplished in 24 hours of arduous climbing, much of it done at night under dangerous low and snow conditions, and bitter cold, using lanterns and flashlight to guide them, is the record set up by Alfred J. Osthelmer Jr., and guide Fuhrer, members of the American scientific party which will explore the Columbia ice-field, "Roof of the Continent," this summer.

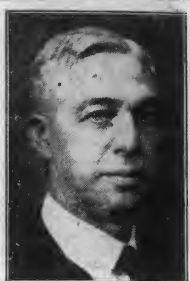

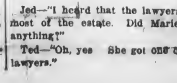

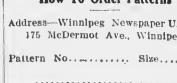

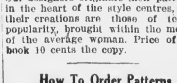

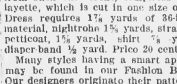

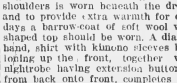

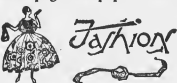

Word of the success of this arduous adventure was sent to Jasper by courier from the edge of the Columbia ice field, as the party ascended before plunging once more into the vastness of this practically unknown area.

Later, Osthelmer and Hans Fuhrer, one of the guides, undertook one of the weirdest trips in the annals of Canadian mountain climbing, reaching the edge of the Columbia ice field in a blizzard, and climbing the North Twin, 12,685 feet, the third peak in the range.

Marching all night, they made a successful ascent of Mount Stutfield, 11,370 feet, and in danger of freezing if they stopped, plugged on and went by lantern and flashlight over the breaking ice field.

At 2:10 a.m. they reached the summit of Mount Kitchener, 11,500 feet, crossing the dome, 11,510 feet at 4:10 a.m., and so back to camp, after 30 hours steady climbing.

Relief For Ex-Service Men

Important Changes In Regulations Are Announced From Ottawa

Important changes in regulations of the soldiers' and sailors' re-establishment department are announced by Dr. J. H. King. Covering a wide variety of subjects these changes will advantageously affect a considerable number of ex-service men, remove certain grievances and provide, in part at least, for the future of those who through no fault of their own, and themselves in need during their declining years, the department states.

The Last Post Fund will be caused sufficient financial assistance to give honorable burial to any Canadian ex-soldier dying in indigent circumstances and otherwise coming under the regulations of the fund.

Last session resolutions were presented to the government by various veteran organizations asking for extension of terms of the pensions act. Many of these resolutions have been completed with and a number are now under consideration.

A special committee has been appointed by the department of justice for the revision of all statutes. This committee will report as to the possibility of handling the revision of the pensions act, and if it does not consider it possible then the Government will consider the appointment of a special committee for that particular purpose.

London Is Air Port
London, Ontario, has now an air harbor. Through efforts on the part of the chamber of commerce an ideal air-field site has been taken over and, within a month's time, will be completely equipped and marked so as to provide an air depot available to all planes that seek London as a stopping place.

Canadian Is Appointed
Dr. R. T. Dickson, professor of botany at McGill university, Montreal, has been appointed by the Commonwealth Government as chief apiculturist of the council of scientific and industrial research, Australia.

Canada Rich in Minerals
Canada now possesses some of the greatest mineral deposits in the world. These include the wonderful Creighton mine, the richest nickel deposit known, and the Frood, in Ontario, the Plin-Fion in Manitoba, with ore reserves approaching \$300,000,000; the Sullivan, the greatest lead and zinc deposit yet uncovered; and the new galena discovery on the Ingenska River, Northeastern British Columbia, to say nothing of the Romya area in Quebec, which carries copper values higher than any others so far found.

Canada's trade with the Orient is steadily increasing, nearly doubling in four years.

Comets Baffle Astronomers
Laws That Govern These Bodies Are Still a Mystery

Comets are strange bodies that baffle even the minds of those beholding the huge telescopes in the observatories. Travelling at a dizzy speed they rush toward the sun, travel around it, and then return to the distant spaces from which they emerged.

Edmund Halley, an English astronomer, began studying the orbits of comets, and in 1682 he calculated that the comet then visible would return in 1758. When in December of that year the comet did reappear, scientists realized that Halley had made an extremely important contribution to the study of comets, and this particular one was named after him.

With Halley's computations the study of comets was rendered infinitely more simple than it had been previous to his time. There still remains the question as to how these swift travellers begin their journey and what their significance may be in a universe governed by inexorable laws. Scientists have tried to discover the unknown laws that govern these bodies, for they seem sometimes to flout those laws already known.

Wheat Pool Agency For South America
Establish Selling Agency in Argentina

W. J. Jackson has been appointed resident representative in the Argentine for the selling agency of the three Western Canadian wheat pools. He will leave for his new field of work early in September and will have his headquarters in Buenos Aires.

The appointment is the outcome of a scouting trip that Mr. Jackson made to South America last year for the purpose of inquiring into the general conditions of the wheat trade in that country. It has since been decided by the wheat pools to be permanently represented there and while the new will be of a somewhat experimental character it is intended to give it a thorough trial. In expectation of the two countries coming into fairly close relations as both producers and exporters of wheat.

Queer Service In Continental Hotels
Traveller Tells of Experiences in Different Countries

Arrived at a big hotel in Athens some months back I booked my rooms and was shown into my bed room. There were no clothes on the bed, no keys to the drawers, no towels for washing, no soap, no water for washing and no jug or basin in which to hold water. I protested that the room was not furnished, it was told that it was. The victuallers brought their own bedclothes, a soap, towels, and they washed in a common wash-up room. So a traveller tells of his experience to the London Daily Mail.

A couple of months ago, this traveller continues, I spent a fortnight in a small hotel on the west coast of Wales. There were enough bedclothes on the bed for a trip to the North Pole. There was a key for every drawer, plenty of soap, towels and water. There were brushes, combs, pins, safety-lights, hair-pins, needles, cotton, candles and matches.

In England the hotels supply soap on the Continent seldom, if ever. In England two towels for each person are placed as a matter of course; in Ireland one; in Germany three. A bedroom is not furnished with tooth-picks and a bowl of sand are supplied. The sand, too, appears in very good-class hotels in Spain.

A bedroom is not furnished with tooth-picks and a bowl of sand are supplied. The sand, too, appears in very good-class hotels in Spain.

The water bottle is also a controversial matter. It completes the furnishing of the bedroom in England. It is seldom found in Scotland. Two are often found on the Continent.

The bedroom is not considered completely furnished in Switzerland during the winter unless the heating system is working well. A friend of mine told me that he had to call for his bill for rooms last winter because his bedroom was not completely furnished on this score.

As Do the Romans
The Experienced Traveller or Tactful Tourist Adapts Himself to Conditions

The happiest traveller is he who can adapt himself to the customs of the country in which he temporarily sojourns. Many Americans in France become soured on that nation because they cannot without considerable trouble eat ham and eggs and coffee and cream for their breakfast. People who are not fond of popery dish out denounce Spain and all its cookery. But the experienced traveller or the tactful tourist does as the people among whom he finds himself. His severity being unimpaired with no petty bit of irritation at alien usage he gets the most enjoyment possible out of his journey. — New York Herald-Tribune.

Premier's Daughter Visits Canada
Mrs. Maurice Huntington Whitely, daughter of the Rt. Hon. Stanley Baldwin, Premier of Great Britain, photographed at Winnipeg during her recent trip across Canada on Canadian Pacific lines to Victoria where she joined her husband, on relief from his ship H.M.S. Pannu, now in Chinese waters.

"I have always maintained," declared Charles, "that no two people on earth think alike."

"You'll change your mind," said his fiancée, "when you look over our wedding presents."

Some Chinese still hold spectacles in superstitious reverence and it is considered correct to remove them when greeting a social superior.

Believed Oldest Inhabitant
Believed to be the oldest inhabitant of Canada, Mrs. Margaret Thickett, of Saulteaux Indian Reservation near Lake Winnipeg at the age of 112. Until recently the squaw had full use of all her faculties and was the widow of Chief Thickett, who before his death many years ago, played an important part in the christianizing of the Saulteaux Indians.

Distributing Frost Fry
Brown trout fry to the number of 185,000 have been recently placed in the North and South Raccoon rivers and the Red River and Muskeg rivers, tributaries of the Red River and Saskatchewan rivers, Southwest of Edmonton, Alberta.

Hubby (quite flourishingly) — Marriage is a lottery."

Wife — "What's that?"

Hubby — "And I won a prize."

Some Chinese still hold spectacles in superstitious reverence and it is considered correct to remove them when greeting a social superior.

SUNDAY SCHOOL LESSON

JULY 21

DAVID AND GOLIATH

Golden Text: "Jehovah is the strength of my life. Of whom shall I be afraid?" — Psalm 23:15
Lesson: 1 Samuel 17
Devotional Reading: Psalm 27 1-6

Explanations and Comments
1. The Philistine Goliath and Goliath's Challenge, verses 1-11: The armies of the Israelites and of the Philistines were encamped on opposite heights of the Valley of Elah. Every morning and evening for forty days a Philistine giant named Goliath had stood forth and challenged the Israelites to settle the matter by single combat, saying: "I defy the armies of Israel; give me a man that we may fight together. If he is able to fight with me, and kill me, then will we be your servants; but if I prevail against him, then shall ye be our servants. And he stood up daily and challenged the Israelites, but they were utterly dismayed. When they saw Goliath approaching, they fled."

Goliath boasted of his strength in which men are prone to boast today. He had physical strength. His height was six feet and a span. Goliath had done all they could for him, and he was a type of animal prey. He had splendid military equipment — a helmet of brass, a coat of mail and a spear like a weaver's beam. Surely if the material equalled most determined combatants, the shepherd from the hills of Bethlehem will be annihilated. And he enjoyed the enthusiastic confidence of the Philistines. He was his nation's pride and glory. He stood out amid their shouts, and the cheers were like iron in his blood. But all this counted for nothing. He was a fool who was a fool.

"Men and nations may attain to a fine minimum; their worldly equipment may satisfy the most exacting standard, and yet, with all against them, they may be as structures woven out of mist, and they shall collapse at the touch of apparent weakness. The issue was not Goliath versus David, but Goliath versus God!" — J. H. Jowett.

Personal and Local

H. W. Clark, sr., left on Monday to spend a vacation at Banff, Calgary and Hanna.

Mrs. Keith of Lethbridge left, on Sunday for Michel to visit friends, after visiting Mrs. Dace in town.

Nurse Morrison of the hospital staff has returned from an enjoyable vacation at Yellowstone Park and Butte, Montana.

Mrs. R. Young and daughter are at present visiting with Mrs. Young's daughter, Mrs. Styverson, at Lakeport, New Hampshire.

Mr. and Mrs. S. Brocklehurst of Calgary are visiting at the home of their son, A. Brocklehurst, Carburdale.

John Burns and Dick Shone returned from Calgary on Monday morning looking pretty healthy after their stay in the city.

Chief Houghton returned on Monday morning from his vacation, having spent last week in Calgary attending the exhibition.

Mrs. A. D. Currie, Mrs. G. Brown and Miss. May Moores returned from Banff, where they had been attending the Anglican summer school.

Mr. and Mrs. A. M. Morrison and daughter Ruth went to Macleod on Tuesday to attend the funeral of George Skelding, ex M. L. A., an old timer there, who died on Sunday at the age of 63 years.

Mr. and Mrs. Harold Dickey of Melville, Sask., and Mrs. Gertrude Evenden and son William, of Estevan, Sask., passed through Coleman on Tuesday on their way to Los Angeles, to visit Mrs. Evenden's daughter, Mrs. Ed. Joughin.

Granville Greenhalgh, who was seriously injured about nine weeks ago when a dump car overturned on him, partly burying him, is making steady progress, and is gradually regaining the use of his legs, which were rendered useless through being crushed.

Returning from Calgary via the Banff-Windermere trail, W. Bell of the Grand Union hotel states it is a trip which he and his family thoroughly enjoyed, the scenic beauties of the trip being very attractive. They reached town on Sunday after spending a week in Calgary.

Dr. Walter Morriah, who has been here for the past few weeks in the absence of Dr. Borden, and who for two years previous to coming to Coleman had been taking post-graduate work in England, is the first Canadian doctor to receive the degree of D. M. R. E. (medical radiology and electrology) Cambridge, states the Edmonton Bulletin. Dr. Morriah intends opening a practice in Edmonton this autumn. Prior to going to England he was resident surgeon at Smoky Lake Hospital.

Card of Thanks

Mr. and Mrs. John Bovio, of Bellevue, Alta., wish to thank their many friends for their numerous expressions of sympathy, and floral tributes, and to Seconda Battistina and Steve Bovio for their generosity at this time of their sad bereavement.

Big Job Started

Work commenced on Monday morning on the demolition of the old trestle on Third street north of Central school, which is to be replaced with cement, and an iron picket fence will surround it, which will be carried round on Central avenue as far as the Bank of Commerce. The improvement will add to the appearance of this part of the town. The contract is in the hands of J. S. D'Appolonia, who has handled most of the important contracts here in the last number of years. This work will furnish employment to a number of men.

Party From Coleman Climbed Turtle Mountain

A small party drove from Coleman to Blairmore on Tuesday morning, and in spite of the heat, made a successful attempt to climb Turtle mountain. The route followed was the ridge beginning at the old cement plant. The ridge was consistently followed for the whole distance. The party found that the apparently high point visible from Blairmore is by no means the highest. There are still more peaks beyond, each a little higher than the last. Those farthest from the highway are marked by flags. First a white, then a red, and on the highest of all a tattered sheet or tablecloth waves in the wind. This last peak was reached with a great deal of satisfaction.

Very little snow remains in some of the deep crevices. Some of the cracks in the mountain can be traced for long distances. To look down over the sheer edge of the slide and listen to the apparently endless trickle of stones and rock is at least impressive.

The only signs of civilization encountered, apart from the banners, were several beer bottles (empty), and several sardine tins.

There were no accidents except the loss of a bottle of concentrated fruit-juice that was cached under a bush against the return journey. It was not recovered. The views, especially of our own part of the Pass, are well worth the effort.

The climb was begun about eleven o'clock and the railroad reached on the return trip shortly before six. The party consisted of Mr. H. J. Bevan, Hugh Dunlop, jr., and Bob Pattinson.

School Board Held Meeting on Thursday Last

On Thursday evening last a meeting of the school board was held in the council chamber, for the purpose of discussing various matters, among them being the providing of funds for the erection of a retaining wall on Third street, to replace the wooden sidewalk and trestle which has been in use there for many years, and which has been condemned.

It has been decided to make a fill there, build a cement wall and lay

a walk on top, which will give a permanent walk. On motion of Councillors Rushton and Fraser, it was moved that the contract be awarded to J. S. D'Appolonia, the work to be completed according to specifications, and contract to be signed by the school board and the council.

The cost of the work will be approximately \$3,000, which will be borne jointly by the school board and the council. The board will loan the council \$1500 of the cost at 5% interest, to be repaid in two years.
